2.2 All orders are accepted subject to these conditions, which superseded any and all prior representations , agreements, statements and understanding, whether oral or in writing.

2.3 No contract shall arise between the parties unless and until the Company confirmed in writing an order received from the Purchaser.

2.4 The giving or sending to the Company of an order constitutes acceptance of all these conditions by the Purchaser, and the Purchaser if not prepared to accept such conditions, must refrain from effecting an order.

2.5 All descriptions, illustrations or colors in respect of the Goods specified in any of the Company sales literature or brochures are so stated or shown as a general guide or description only and the Company does not contract or represent that the Goods will comply with any particular detail contained in such sales literature or brochures.
3. Price and Payment
- 3.1 The Company reserves the right, by giving notice to the Purchaser at any time before delivery, to increase the price of the Goods to reflect any increase in the cost to the Company which is due to any factor beyond the control of the Company, including any foreign exchange fluctuation, currency regulations, alteration of duties, any change in delivery rates, quantities or specifications for the Goods which is requested by the Purchaser or any delay caused by any instructions of the Purchaser or failure of the Purchaser to give the Company adequate information or instructions.

3.3 Unless otherwise agreed in writing, the Purchaser shall pay all amounts due within30 days of the date of delivery.

3.5 The Company reserves the right at any time at its discretion to demand security for payments before continuing with contract and/or delivering of Goods.
4. Warranty and Complaints
- 4.1 No complaint can be considered unless clear proof can be given that the Goods alleged to have performed unsatisfactorily were in fact Goods supplied by the Company and that they were grown carefully and correctly throughout and subject only to such conditions as were likely to produce a favorable crop.

4.2 Every effort is made to ensure that the Company's stock is of the highest quality, but the Company shall not be responsible of the effects of natural causes which are beyond the control of the Company and therefore the Goods are sold without warranty, express or implied, as to productivity or freedom from pest or disease.

4.3 The Purchaser agrees that it is reasonable in the circumstances that in no event shall any failure of any kind on the part of the Company give rise to liability exceeding up to twice the price actually paid by Purchaser for the Goods. The Company shall not be liable to the Purchaser for loss of goodwill, loss of business, loss of revenues, loss of reputation or any type of direct and/or indirect loss (including loss or damage suffered by the Purchaser as a result of an action brought by a third party) even if such loss was reasonably foreseeable or the Company had been advised of the possibility of the Purchaser incurring the same.Above stipulation shall be in full force and effect also if a claim is made against the Purchaser in case that the Goods infringe or that their use or resale infringes the patent, copyright, design, trade mark, plant breeder's rights or other industrial or intellectual property rights of any other person.
5. Notification of Claims
- 5.1 Subject to the provisions herein stipulated Goods shall be deemed to be properly accepted as ordered by the Purchaser two (2) working days following delivery if written notice to the contrary has not been received by the Company.
